

# Lab Report

## Elephant Toothpaste

### A clean 16-ounce plastic soda bottle.

- ½ cup 10% hydrogen peroxide liquid
- A few drops of liquid dish washing soap
- Food coloring

### Small cup

- 1 tablespoon (one packet) of dry yeast
- 3 tablespoons of warm water

Combine hydrogen peroxide, dish soap, and food coloring in the bottle. In a small cup, dissolve the yeast and warm water. Carefully pour the yeast mixture into the bottle and watch as the bubbles overflow! Simply clean with water when finished.
