

SCIENCE CENTER VISIT

1. No running
2. No shouting
3. Switch levels as a group

SCIENCE DEMONSTRATION - FLOOR THREE

Take notes during the demonstration, as needed.

The questions on the next page can be answered back at school

AREA FOR NOTES

SCIENCE DEMONSTRATION - FIELD NOTES

ASK QUESTIONS?

What questions was the group trying to answer?

GROUP HYPOTHESIS

A hypothesis is an explanation to a question that can be tested with an experiment.

Did the group develop a hypothesis, if so what?

INDIVIDUAL HYPOTHESIS

Did the you have your own a hypothesis, if so what?

MAKE OBSERVATIONS

When scientists make observations they collect data and record evidence.

Draw a picture of what you observed/saw/touched during the demonstration?

Draw a picture
