

# Lab Report

## *Soapy Slime!*

- 1 cup soap flakes (in the detergent aisle)
- 3 cups warm water
- Food coloring

Pour the water into a large mixing bowl.  
Add the food coloring and soap flakes.  
Place the mixing bowl into a large container or tray.  
Using an electric beater, beat the mixture as it overflows.

\*TIP: This is a great outdoor activity, when finished, just spray everything down with a hose.
