Our Philosophy
The philosophy of the Graham Academy Preschool at the Washington Pavilion is to provide a program for the whole child – incorporating social, emotional, fine and gross motor skills, literacy and logical/mathematic learning and creative development in a caring, play-based classroom.

Our Curriculum
The Graham Academy Preschool curriculum stimulates exploration and encourages problem-solving skills, creativity, social and emotional growth coupled with opportunities to interact with Kirby Science Discovery Center exhibits, Visual Arts Center exhibitions and Husby Performing Arts Center programming.

Foreign language immersion experiences are also provided throughout the year. Our preschoolers develop a broad knowledge base of the world around them through experiential learning. Their teachers accept them as individuals and encourage each child to progress at his or her own pace, laying the foundations for language, beginning academic skills, and social skills.

Classes
